

POSITION TITLE: Math Corps Interventionist – AmeriCorps stipend position

The Math Corps of Michigan is looking for math interventionists for the upcoming school year to serve at **Fancher Elementary, Mary McGuire Elementary and Mt. Pleasant Middle School** for the upcoming 2021-2022 school year.

In Michigan, less than 40% of seventh graders are proficient in math. You can make a difference by giving your time and talent to help students build their math and problem solving skills.

Interventionists work with pairs of students during school hours throughout the school year. No matter if you're a recent grad, career changer, stay-at-home parent or retiree, you can make a great interventionist. No experience? No problem. Interventionists receive great training, so they are well equipped to help students grow.

Part-time and full-time positions are available. Opportunities begin on August 30, 2021.

Perks as an interventionist

- Build your skills, network and resume
- Receive a stipend every two weeks
- Complete experiential and training hours toward the Michigan Youth Development Associate (MI-YDA) credential
- Earn up to \$4,441.50 for college tuition or federal student loans. Tutors 55 and older may gift the award to their child, grandchild, stepchild or foster child.
- Free health insurance for full time AmeriCorps members
- Free childcare assistance for those who qualify
- Federal student loan forbearance
