

# MPPS Mask Protocol

For the week of October 11, 2021: Isabella County is in **High Transmission**

<b>Level of Community Transmission</b>	<b>MPPS Mask Protocol</b>	<b>Number of cases per building</b>
High Transmission	All students and staff will be required to wear masks at all times inside.	All students and staff will be required to wear masks at all times inside.
Substantial Transmission	All students up to age 12 will wear masks at all times inside	If the number of cases in a building represents more than 1% of the total student and staff population, all students and staff in that building will mask until that percentage drops below 0.5%.
Moderate Transmission	All students up to age 12 will wear masks inside, except when seated in the classroom	If the number of cases in a building represents more than 1% of the total student and staff population, all students and staff in that building will mask until that percentage drops below 0.5%.
Low Transmission	Masks are optional for all	Masks are optional for all unless there is an outbreak in a building.

Community transmission levels are based on data provided by the [CDC Website](#).

Information on the number of cases as determined by MPPD and CMDHD can be found [here](#).

\*This data will be updated and shared weekly with the MPPS community.
